More Info for Email Admins
This error occurs when the email system of the recipient's domain has security or policy settings that reject the sender's message. However, we were unable to determine the specific setting that's causing this.

To fix the issue, contact the email admin at the recipient domain and ask them to add the sender's email address to their allow list, or to relax the setting that's causing the rejection.

If you get this error when sending to recipients who are not hosted by Office 365 it's possible one or more of the sending IP addresses used by Office 365 has been placed on a block list or that the message appears to the recipient domain as malicious or as spam. Examine the "Reported error" in the **Error Details** section below to help determine the cause. If you determine that it's because Office 365 was placed on a block list, you can open a Service Request with Microsoft Support for assistance (choose Mail Protection -> Message was blocked as spam).

For more information, see Error code 5.7.1 in Exchange Online and Office 365.
